DETAILED ACTION

Response to Amendment

1. The Examiner has accepted changes made to the claims.
2. Claims 1,3-11 and 13-22 have been amended.
3. Claims 2 and 12 have been cancelled.
4. Claims 23 and 24 have been added.
5. Claims 1,3-11 and 13-24 are pending.

Response to Arguments

6. Applicant's arguments filed 07 January 2005 have been fully considered and they are persuasive.

Allowable Subject Matter

7. **Claims 1,3-11, and 13-24 are allowed.**
8. The following is an examiner's statement of reasons for allowance: The present invention is directed toward a non-linear transformation on an intermediate data group according to the number of times specified for each extended key, allowing extended keys to be safely processed at high speeds. Each independent claim identifies the uniquely distinct feature "wherein the intermediate data preparing unit is provided with a nonlinear type operating unit for effecting an nonlinear type operation with respect to each bit group to prepare the intermediate data groups". The closest prior art Kanda et al. (EP 1001398) discloses an encryption device for concealing data in data communications or storage using a secret key algorithm, performing non-linear

transformation according to the number of keys, either singularly or in combination, fail to anticipate or render the above underlined limitations above.

9. Therefore, **claims 1,11,21-24** and the respective **dependent claims 3-10 and 12-20** are in condition for allowance.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Courtney D. Fields whose telephone number is 571-272-3871. The examiner can normally be reached on Mon - Thurs. 6:00 - 4:00 pm; off every Friday.
